Listening To Spravato® CalmStation™

Clinical Grade
Tamper-Proof

Dedicated Audio-Visual Therapy Kiosk for Esketamine Treatment Rooms

Engineered specifically for clinical Spravato® monitoring rooms. The CalmStation eliminates patient distraction and technology friction by pairing immersive, grounding audio-visual soundscapes with strict, single-app enterprise lockdown on Apple hardware.

CLINICAL ARCHITECTURE & CAPABILITIES

Therapeutic Audio-Visual Experience

- **Curated Soundscapes:** Ambient tones, wordless instrumentals, and soft classical textures specifically compiled to ease dissociative onset.
- **Synchronized Visual Journeys:** Slowly evolving, non-jarring visuals designed to promote patient grounding without overstimulation.
- **Patient-Controlled Modes:** Effortless toggling between audio-only deep relaxation and synchronized video environments.

Enterprise Kiosk Lockdown (MDM)

- **Zero Ads & Commercials:** Completely eliminates pop-ups, algorithms, banner interruptions, and streaming service friction.
- **Anti-Browsing & Content Shield:** Safari, social media, and web browsing are removed—100% blocked from adult content and unauthorized video apps.
- **Locked Single-App Shell:** Patients cannot exit, close the interface, change settings, or access system menus.

HARDWARE & SYSTEM SPECIFICATIONS

COMPONENT	CLINICAL SPECIFICATION
Display Engine	Apple iPad (Retina Display) locked in managed Single-App Assessment Mode.
Enclosure & Security	Heavy-duty tamper-proof locking frame with concealed home button, power, and volume controls.
Stand & Footprint	Adjustable-height commercial steel floor stand with weighted base for zero-tip recliner placement.
Audio System	Closed-back acoustic isolation headphones; dedicated hanging hook on column.
Infection Control	100% wipe-down non-porous surfaces compatible with standard clinic disinfectant wipes.
Cable Management	Internal pole cable-routing with strain relief to eliminate trip hazards near patient seating.
